AeroDrift - Incident Report

Incident ID: 20261024_194305_890872

Generated: 2026-10-24 19:43:05

1. Detected Drift

Field	Value
Drift type	open_sg_port
Resource ID	sg-mock-app
Port	22
Protocol	tcp
CIDR	0.0.0.0/0
Description	SSH port is open to the internet

2. Agent Remediation

Generated remediation code:

```
ec2.revoke_security_group_ingress(
 GroupId='sg-mock-app',
 IpPermissions=[...]
)
```

3. Execution Result

Status: SUCCESS

Sandbox message: Demonstration only: sample success status.

4. Infrastructure State Comparison

Before remediation:

```
{'security_group': 'sg-mock-app', 'port_22': 'open to 0.0.0.0/0'}
```

After remediation:

```
{'security_group': 'sg-mock-app', 'port_22': 'removed from mock state'}
```

5. Incident Summary

The sandbox reported successful execution of the remediation action. Verify the after-state to confirm that the intended infrastructure drift was corrected.
